

# WINE ENTHUSIAST BEST BUY

### VITICULTURAL INFO:

2011 was a challenging year in the vineyards. The rainfall in December was quite high (this is an important point for the vine development) but in the overall for the autumn/winter months was quite normal.

We had an early flowering due to the hot weather in April and May (several heat waves), which together with high humidity levels forced us to do several treatments.

On the end of June there was a heat wave in some Douro areas, that led to grape burning in some of the most sensitive varieties, like Tinta Barroca. June was a month with big temperature amplitudes. July was also relevant for the vine development, as it was much colder than usual.

The rain by the end of August was crucial for the potential quality of the year because it created conditions for an excellent maturation. With all these conditions, the final result was an earlier harvest – 10 to 15 days.

MIGUEL SOUSA Agronomist

## WINEMAKER COMMENTS:

Made with a very carefully winemaking, using gravity and precise techniques, this wine has a dark dense colour, with aromas of cinnamon and red fruit jam. It is full bodied with ripe tannins, and a long and complex finish, with fruit and oak in perfect harmony. A modern and pleasant Douro red.
